

Designer

As part of our continuing growth strategy, Dolmen would like to hear from talented designers with 2-5 years professional experience to join our creative team.

About Dolmen

We make ideas work - We discover, develop and deliver new products by combining innovation strategies with creative design thinking. Our expanding team consists of researchers, designers, and engineers as well as brand and innovation specialists - all focused on bringing new ideas to market. Our clients range from entrepreneurs to multinationals and for over 25 years, we've been developing award-winning new products and experiences for a diverse range of industries.

Job Description

Typical day to day job activities for our designers include:

- Working with the senior creative team to interpret client requirements while developing innovative new product propositions using a range of ideation techniques.
- Developing engaging concept visuals using a combination of traditional sketching, soft modelling and high end digital visualisation tools.
- Accompanying the senior team with client presentations and project reviews and helping to maintain our high standard of customer service during all client contact.
- Following through on selected design concepts by using 3D CAD tools to develop models, test rigs and fully working prototypes.
- Working with clients and supply chain partners to ensure design intent is maintained throughout the process as successful product concepts are transitioned through to production.

Job Requirements

- Recognised degree level qualification in either Industrial, Product, UX or Medical Device Design.
- 2-5 years product development experience, preferably in a consultancy environment.
- Excellent communication skills, including verbal, written and in person.
- Ability to communicate quickly and effectively through fast, fluid sketching.
- Proficiency in the use of 2D and 3D design and visualisation software. Preferably including experience in the use of PTC/Creo and Keyshot.
- Ability to work as part of a flexible, dynamic team, while taking responsibility for individual tasks.
- An enquiring mind with an analytical approach to problem solving and an ability to visualise simple solutions for complex problems.
- A solid understanding of how things work, with an obsessive desire to make things work better.

Have you got what it takes?

If you can tick these boxes, we'd love to hear from you. In return we'll offer a fast paced but fun environment to work in, a competitive salary and an opportunity to contribute to the continuing development of exciting new products. (An obsession with good coffee, bad music, surfing and frisbee is not required, but might just be helpful)

Contact us today by emailing careers@dolmen.ie with a CV and some examples of your best work in A4 pdf format.
